

Probe Support Matrix

Nimsoft Platform Support Availability

January 31, 2012

Please note:

This matrix describes which platforms the probes may be installed on. For information regarding what the probes are monitoring (platforms, operating systems, applications, devices, etc.), please see individual probe release notes.

Version numbers in brackets () indicate that 64-bit support is verified, but probe is 32-bit native.

*) Solaris for 32-bit Sparc version 8 and higher requires an UltraSparc processor.

File name	TYPE	Version	Status	Windows			Solaris				HP-UX			Linux			AIX		TRU 64		AS 400		Netware		
				x86	x86_64	Itanium2 - IA64	Sparc 32 bit *	Sparc 64 bit	x86	x86_64	PA-RISC 32 bit	PA-RISC 64 bit	Itanium 64 bit	x86	x86_64	PowerPC 64 bit	PowerPC 32 bit	PowerPC 64 bit	Alpha	iSeries	x86

Probe Support Matrix

Nimsoft Platform Support Availability

January 31, 2012

Please note:

This matrix describes which platforms the probes may be installed on. For information regarding what the probes are monitoring (platforms, operating systems, applications, devices, etc.), please see individual probe release notes.

Version numbers in brackets () indicate that 64-bit support is verified, but probe is 32-bit native.

* Solaris for 32-bit Sparc version 8 and higher requires an UltraSparc processor.

File name	TYPE	Version	Status	Windows			Solaris			HP-UX			Linux			AIX		TRU 64		AS 400		Netware

Nimsoft Platform Support Availability

January 31, 2012

Please note:

This matrix describes which platforms the probes may be installed on. For information regarding what the probes are monitoring (platforms, operating systems, applications, devices, etc.), please see individual probe release notes.

Version numbers in brackets () indicate that 64-bit support is verified, but probe is 32-bit native.

*) Solaris for 32-bit Sparc version 8 and higher requires an UltraSparc processor.

File name	TYPE	Version	Status	Windows			Solaris			HP-UX			Linux			AIX		TRU 64	AS 400	Netware	
				x86	x86_64	Itanium2 - IA64	Sparc 32 bit *	Sparc 64 bit	x86	x86_64	PA-RISC 32 bit	PA-RISC 64 bit	Itanium 64 bit	x86	x86_64	PowerPC 64 bit	PowerPC 32 bit	PowerPC 64 bit
